KARUPPASAMY V.

Engineering Professional | Software & Hardware Testing | Instrumentation | Business Leadership

Tenkasi, Tamil Nadu, India | 9566589445 | sathishveera2410@gmail.com

PROFESSIONAL SUMMARY

Engineering professional with experience across multi-function printer software development, environmental sensor testing and calibration, aerospace instrumentation, and construction business leadership. Experienced in C++, Linux, Qt, manual testing, test case design and execution, defect tracking, release coordination, sensor calibration, and client-facing technical communication. Founder and Managing Director of Uthra Construction Company, with responsibility for project delivery, budgeting, client relations, and quality control.

CORE SKILLS

- Manual Testing, Test Case Design & Execution, Defect Tracking, Bug Reporting
- Multi-Function Printers (MFP) and printer software modules
- C++, Linux, Qt, Microsoft Visual C
- Environmental monitoring sensors: gas, temperature, pressure and flow
- Sensor testing, calibration and instrumentation checks
- Aerospace cockpit instrumentation and gyroscope sensor testing
- Release management, external review coordination and technical communication
- Project management, budgeting, client relations and quality control

PROFESSIONAL EXPERIENCE

Founder & Managing Director | Aug 2020 – Present
UTHRA CONSTRUCTION COMPANY (UCC) | *Tenkasi, India*

- Founded and manage a construction enterprise, overseeing end-to-end business operations, project management, client relations, budgeting and quality control.
- Apply leadership, financial discipline and strategic decision-making to support sustainable business operations.

Lead Engineer | Jan 2015 – Jun 2020
HCL TECHNOLOGIES LTD. | *Madurai & Sholinganallur, Chennai, India*

- Client: Konica Minolta Business Technologies, Japan | Domain: Multi-Function Peripheral (MFP) printers.
- Served as Technical Point of Contact for Message and Specification modules, developing core business logic using C++, Linux and Qt.
- Owned release management for weekly deliverables and coordinated external reviews for testing and tool development.
- Engineered the AVM (Animation, Voice and Message) module, combining troubleshooting visual guides, background audio prompts and localization across nine languages.

Apprentice Trainee – Cockpit Engineer | Nov 2014 – Jan 2015
HINDUSTAN AERONAUTICS LIMITED (HAL) | *India*

- Client: Indian Air Force | LCA-Tejas instrumentation division.
- Tested and calibrated gyroscope sensors used for flight stabilization and checked cockpit signal strength before test-flight departures.
- Tested transceiver operations between aircraft and base stations to support system reliability.

Project Assistant | May 2013 – Nov 2014
INDIAN INSTITUTE OF SCIENCE (IISc) | *Bengaluru, India*

- Worked on CENSe under the guidance of Prof. Navakant Bhat for the Karnataka State Pollution Control Board.
- Tested and calibrated gas, temperature, pressure and flow sensors for the Envirobat environmental monitoring device.
- Designed and developed interface electronics circuit boards using Microsoft Visual C, COMSOL and sensor calibration tools.

EDUCATION

B.E. – Electronics & Communication Engineering — Velammal College of Engineering & Technology, Anna University, Madurai (2013) | **80%**

HSC / Diploma – Electronics & Communication — P.A.C.R Polytechnic College, Rajapalayam (2010) | **92%**

SSLC — National Higher Secondary School, Tenkasi | State Board (2005) | **86%**
